

KHAMISI SOLUTIONS

INNOVATIVE. DIVERSE. EFFICIENT.

OPTIC FIBRE PROFILE

WHO WE ARE

Khamisi Solutions is a Built Environment and Consultancy with a division that specialises in Fibre projects and development

Khamisi Solutions, a BBBEEE level 2 Built Environment Consultancy with a division focused specifically on Fibre projects and development.

We pride ourselves in the ability to bring Engineering Consultancy (Planning and Design) and Construction supervision related services and quality management to the Construction sector, thus enabling us to also be a "one stop shop" for Design and Construction related work, where required. Khamisi Solutions employs a balanced, multi-faceted and holistic approach in providing solutions that optimise our client's resources and investments.

SERVICE OFFERED

Khamisi Solutions has built a team with extensive experience in the following field/project types:

- Planning and Design
 - Survey and Wayleaves applicable
 - Planning and services/infrastructure coordination/space-proofing along road reserves, built up living and/or commercial environments as well as open areas
 - GIS solutions for mapping all installed and planned sites
 - Planning and design of microwave sites
 - Asset Management
- Fibre To The Home/Business (FTTH and FTTB)
- Microwave installations and connections
- Fibre testing.

"Khamisi Solutions not only employs health and safety in daily interactions with Clients, but also incorporates; practises and lives H&S in our working environment.."

VISION

To be "future ready", leading local and regional partnerships with all major stakeholders and entities in the Fibre industry.

MISSION

To be a local and regional preferred partner in the Fibre Environment. We endeavour on:

- Focusing on Client's needs and adding value using a LEAN approach
- Focusing on quality delivery and risk management
- Providing economical yet socially and environmentally acceptable solutions to our clients
- Utilize Khamisi's expertise, skills, tools and client knowledge, in optimising the Clients infra structure and institutional resources
- Applying dynamic evolving innovative technology driven solutions to meet our Client's needs.

OUR VALUES

Our philosophy is founded on the following values:

- Professionalism, excellence and efficiency
- Integrity and ethical behaviour
- Quality and uncompromised delivery of services
- Respect for cultural diversity
- Corporate Social responsibility
- Good governance.

OWNERSHIP

We take full ownership and pride in our work and are committed to successful implementation and completion of all projects we are involved in;

RESOURCES

We invest time and efforts in (1) having the resources with relevant capacity to undertake work (2) developing our people further and (3) capacitating our resources to ensure Client satisfaction on work delivered.
